

Mirror Magic

Folds where both halves match

1. Draw half, then complete it

Draw half of a butterfly on the left of the dashed line. Then draw the matching half on the right so the two sides match.

fold line

2. Which letters does a mirror complete?

Circle the letters that have a matching left and right half:

A R M F T W G H

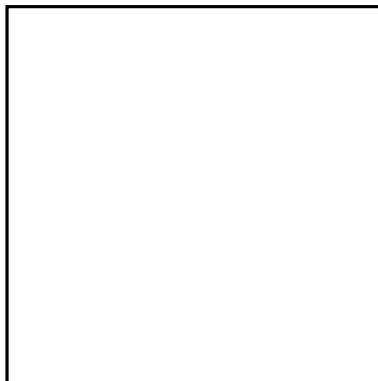

3. Fold and cut

1. Fold a paper in half. Cut half a heart on the fold. Open it.
2. Fold a circle of paper into a skinny wedge. Snip the edges. Open it slowly to find a snowflake.

How many matching points does your snowflake have? _____

4. How many fold lines does a square have?

Fold a square of paper different ways. Draw every fold line you find on this square:

I found _____ fold lines.

5. Symmetry hunt

Find five things in the room with a line of symmetry. Draw or write them:

1. _____
2. _____
3. _____
4. _____
5. _____
